

New 90-Day Expiration Date of EyeCareCE Online Courses

Frequently Asked Questions (FAQ)

1. When does the new 90-day expiration date go into effect?

Effective August 1, 2018: Access to online EyeCareCE courses, quizzes, and exams will expire 90 days after the date of purchase.*

2. I purchased a course before August 1. When will it expire?

All course enrollments that are still active as of August 1 will remain accessible through their original expiration dates.

3. Does this apply solely to IJCAHPO courses?

No. The new 90-day expiration date applies to all of our EyeCareCE Partner courses as well.

4. I have a CE Clinic Subscription, how does this affect me?

The same policy applies to courses purchased through our Clinic CE Subscription program.

5. Does this policy impact the paper-based Refinement Modules?

No. Since the Refinement Modules are not online courses, the policy does not apply.

* The only exception to this policy is the “JCAHPO Career Advancement Tool Quiz” (JCEX1030), which will still be active one full year from the date of purchase.
