

ATPO's 16th Annual

Buffalo
Conference
for Allied Ophthalmic Personnel

Friday, October 12, 2018

**Buffalo Marriott Niagara Hotel
1340 Millersport Highway
Amherst, NY 14221**

8:00-8:30 a.m.	REGISTRATION AND CONTINENTAL BREAKFAST
8:30-9:30 a.m.	AGING... FROM THE NECK UP <i>Peter Emmett Hurley, MD, MS</i> This lecture will review common disorders that are treated by oculoplastic surgeons. It will review facial anatomy relevant to aging around the eyes and oculoplastic surgery procedures. Evaluation and diagnosis of common eyelid and eyebrow abnormalities will be discussed, as well as common problems that are present during oculoplastic surgery.
9:30-10:00 a.m.	OCT: THE GOOD, THE BAD, AND THE UGLY <i>Joseph Murphy, MD</i> This course will provide a survey of various OCT results. The instructor will discuss tips for acquiring high quality images and attendees will learn how to identify problems that require a timely diagnosis.
10:00-10:15 a.m.	BREAK
10:15-10:45 a.m.	DIABETIC RETINOPATHY <i>Ausra Selvadurai, MD</i> This course will provide an update on diabetic retinopathy screening and treatment. Attendees will become familiar with diabetic retinopathy and its treatments; including laser treatment, intravitreal injections, and the medications currently available.
10:45-11:15 a.m.	NEW VS. OLD MIGS <i>Asher Weiner, MD</i> This course will present two different MIGS procedures. It will compare the latest studies on a new MIGS (iStent), to the previous gold standard MIGS (Trabectome). Attendees will learn what the two MIGS are and how the iStent and Trabectome differ in safety and success.
11:15-11:45 a.m.	ULTIMATE A-SCANS: BIOMETRY TIPS & TECHNIQUES <i>Laura Lee Hopkins, COMT, OCT-C, ROUB, OSC</i> This lecture will cover a brief history of the IOL, the methods of measurement currently available, the types of formulas used, and formula application to each patient. The instructor will provide examples of proper and improper measurements. Participants will be shown how to identify accuracy on the data printed from the biometry measurements, and be given examples to aid in accurate measurements. Physics of the movement of light and sound through various densities, and application of data to the correct formula for proper calculation of the IOL, will be included.
11:45 a.m.-1:00 p.m.	LUNCH
1:00-1:30 p.m.	THE OPHTHALMIC TECHNICIAN'S GUIDE TO DETECTING AND EVALUATING DOUBLE VISION <i>Kyle Arnoldi-Jolley COMT, CO</i> Double vision is one of the more common visual complaints that a patient brings to their ophthalmologist. Unfortunately, double vision does not always mean diplopia! The role of the technician begins with an in-depth interview to determine which symptoms the patient is experiencing, under what circumstances, and any associated findings. The technician's exam must also include a few additional steps including determination of the dominant eye and evaluation of fusion potential. This lecture will offer a step-by-step method for working up a new patient with symptoms of double vision.
1:30-2:00 p.m.	NYSTAGMUS: A SIMPLIFIED APPROACH <i>Kyle Arnoldi-Jolley COMT, CO</i> Most eye care professionals find nystagmus intimidating. Even the most simple tests become complex when the eyes are constantly moving. To make things more difficult, some forms of nystagmus are associated with vision or life-threatening diseases. This lecture will attempt to demystify nystagmus and provide the technician with a logical and simplified way to work up the patient with nystagmus. The types of nystagmus that should raise a red flag will also be discussed.
2:00-2:30 p.m.	COLOR VISION <i>Craig Simms, BSc, COMT, ROUB, CDOS</i> This course will present a case study of a family with a color deficiency. Using pseudoisochromatic plates, D-15, and the 100 hue, this color deficiency will be explored in one particular part of the family. This case study will illustrate how the different types of tests usually correlate to help determine the type and severity of the deficiency.
2:30-2:45 p.m.	BREAK
2:45-3:45 p.m.	BASICS OF OCULAR GENETICS FOR OPHTHALMIC TECHNICIANS <i>John Lillvis, MD, PhD</i> This course will review the basics of genetic eye disease as encountered in routine clinical practice. It will help the attendee understand basic modes of genetic inheritance and how to interpret pedigrees, as well as recognize some of the more common types of inherited eye disease. Basics of genetic testing, clinical management and imaging, and treatment will be discussed.
4:00 p.m.	ADJOURN

Registration Form

Registration form may be duplicated. Please use one form per registrant.

ATPO's 16th Annual Buffalo Conference
Friday October 12, 2018

Registration and Cancellation Deadline: October 3, 2018

REGISTER ONLINE at <http://store.jcahpo.org/calendarschedule.aspx> (preferred)
MAIL form and payment to ATPO, 2025 Woodlane Drive, St. Paul, MN 55125
FAX completed form to 651-731-0410 (credit card orders only)

Special accommodations: ATPO provides reasonable and appropriate accommodations to individuals with documented disabilities who demonstrate a need for special accommodations. Specific special accommodations should be related to functional limitations. Please include additional supporting documentation from the medical professional who diagnosed the condition. It is essential that the documentation of the disability provide a clear explanation of the current functional limitation(s) and a rationale for the requested accommodation.

I wish to register for:

All check payments must be in U.S. funds and drawn on a U.S. bank.

BY SEPTEMBER 27

EARLY Individual Registration:

- ATPO Member or IJCAHPO Certified (individual) \$110
 Other registrants (individual)..... \$195

ON OR AFTER SEPT. 28

Individual Registration:

- ATPO Member or IJCAHPO Certified (individual) \$135
 Other registrants (individual)..... \$220
- One year ATPO Membership \$75

TOTAL \$ _____

ALL PAYMENTS MUST BE MADE TO JCAHPO

On-site registrations will be accepted on a space-available basis.

Please **PRINT** clearly using blue or black ink.

General Information

For additional information regarding registration, contact ATPO at 800-482-4858 or e-mail atpo@atpo.org.

PLEASE NOTE

Registration fees include course materials, breaks, continental breakfast and lunch.

Membership dues are separate from registration fees; however, you may join ATPO at the time of registration and benefit from the member discount (dues must be included on registration form). No refunds will be issued to individuals joining ATPO after registering at the non-member rate.

CANCELLATIONS/REFUNDS

All cancellations and requests for refunds must be received by ATPO in writing by October 3, 2018. No refunds will be granted after that date, regardless of the reason, unless the conference is cancelled by ATPO. A processing fee of \$75 is deducted from each cancelled registration to cover a portion of the costs ATPO incurs. ATPO memberships are non-transferable and non-refundable.

CONTINUING EDUCATION CREDITS

These courses have been submitted to IJCAHPO for 5.5 Group A continuing education credits. Continuing education credits earned will be posted on your account at www.jcahpo.org approximately 4-6 weeks after the program for participants who complete evaluation forms.

NOTE: Attendance is monitored for each hour of instruction. Participants absent for more than 15 minutes of any given hour will not receive credit for that hour.

ATPO MISSION STATEMENT

To provide, expand, and support scientific and educational opportunities for allied health personnel in ophthalmology, and to act as an advocate for its members and the profession.

LOCATION:

Buffalo Marriott Niagara Hotel
1340 Millersport Highway
Amherst, NY 14221
(716) 689-6900

ATPO MEMBER BENEFITS INCLUDE:

- Free access to *ATPO's Salary & Benefits Report*
- Discounted registration fees at regional education programs, including *ATPO's 33rd Annual Scientific Session/Grand Rounds and Certification Exam Review Courses*, October 26-28, 2018 in Chicago, IL
- Five complimentary IJCAHPO CE credits earned by completing CE courses
- A complimentary subscription to both *ATPO's Viewpoints* magazine and monthly e-newsletter
- Discounts on certification exam review materials
- Easy access to job postings, powered by Local Eye Site
- Member pricing for IJCAHPO's online educational resource – EyeCareCE
- Networking opportunities through organizational functions and the Regional Mentor Network
- And much more!

ATPO BUFFALO CONFERENCE

The Buffalo Conference for allied ophthalmic personnel (AOP) is held annually and is sponsored by the Association of Technical Personnel in Ophthalmology (ATPO). As the membership organization for AOP, ATPO is committed to high standards and professional ethics dedicated to quality ophthalmic medical care under the direction of an ophthalmologist. ATPO represents AOP, including ophthalmic assistants, technicians, technologists, photographers, and orthoptists.
