

IJCAHPO Meeting Vaccination and Mask Protocols

IJCAHPO is committed to keeping your health and safety a priority. IJCAHPO continues to follow all health and safety guidelines and on-site attendees/staff will be required to comply with all Center for Disease Control (CDC) protocols. **IJCAHPO follows the most current CDC guidelines and has the right to update our requirements accordingly.**

Important Note: All attendees voluntarily assume all risks related to exposure to COVID-19 when attending IJCAHPO meetings and events. All program participants will be required to follow all local and hotel protocols. For current and more information visit:

<https://www.cdc.gov/coronavirus/2019-ncov/travelers/travel-during-covid19.html>

Masks

IJCAHPO requires all attendees to wear masks regardless of any local regulations and mandates.

Vaccinations

Before being allowed to participate in activities, all on-site meeting participants, including staff, exhibitors, and guests, will be required to:

1. Be fully vaccinated and show proof of COVID-19 vaccination; or
2. Show proof of negative PCR COVID test within 72 hours of the program starting.

Prior to the program, attendees will be asked to provide proof that they are fully vaccinated with an approved vaccine or a vaccine approved for emergency use by the U.S. Food and Drug Administration (FDA) or the World Health Organization (WHO), or proof of a negative PCR COVID test.

Registering On-site

To register on-site, you will need your proof of vaccination approval or negative PCR COVID test.

Accepted Vaccines

Pfizer-BioNTech

Johnson & Johnson's Janssen

Moderna

AstraZeneca-Oxford

Sinopharm

Serum Institute of India: Covishield

Sinovac: CoronaVac

Definition of Fully Vaccinated

If you don't meet these requirements, you are **NOT** fully vaccinated.

- 2 weeks (14 days) after your dose of an accepted single-dose COVID-19 vaccine; or
- 2 weeks (14 days) after your second dose of an accepted 2-dose series COVID-19 vaccine; or
- 2 weeks (14 days) after you received the full series of an active (not placebo) COVID-19 vaccine in the U.S.-based AstraZeneca or Novavax COVID-19 vaccine trials; or
- 2 weeks (14 days) after you received 2 doses of any "mix-and-match" combination of accepted COVID-19 vaccines administered at least 17 days apart.

Recovered From COVID-19, Received Monoclonal Antibody Therapy

Treatment with monoclonal antibodies is not a substitute for a vaccine. However, those who were not previously vaccinated and received a monoclonal antibody infusion for COVID-19 cannot be vaccinated within 90 days of their infusion. If you have had COVID-19 **AND** monoclonal antibody treatment within 90 days of this program, you may register for the in-person meeting. You will need to bring a letter from your treating physician attesting to your diagnosis and treatment dates in order to obtain your IJCAHPO badge.

Vaccination Verification Process

IJCAHPO is using CLEAR to validate vaccinations. You will be required to download the application and enroll for free to verify your vaccination. Please make sure you select the **Digital Vaccine Card** on the application.

You will be required to show that you have verified your vaccination status on-site.

1. Go to <https://clear.app.link/4zFtYPmSM3> on your mobile device. This will take you to Google Play or the Apple Store to download the free CLEAR app.
2. Open the CLEAR app.
3. Scroll down and tap on the blue **Digital Vaccine Card** tile.
4. Create your account (you will be asked for your phone number and email; to scan a photo ID; and then to take a photo).
5. Follow prompts to add your COVID-19 proof of vaccination. You can securely link to a health provider, scan a SMART QR code or upload your CDC card.
