Greetings,

2019-2020 has been a Landmark year in IJCAHPO’s history. We started the year by commemorating our 50th Anniversary and we are now pleased to announce the launch of our Annual Continuing Education (ACE) Program in our inaugural format: Virtual Broadcast and Virtual On-Demand. This format is an opportunity for allied ophthalmic personnel to attend the most important, innovative and quality CE program of the year from the safety of your own home or office. We will miss seeing you in-person but we hope you will take part in our interactive sessions, such as the Roundtables and EYEXchange. Whether you are just beginning your ophthalmic career or are an experienced professional seeking to enhance your competencies, this new format will continue IJCAHPO’s tradition of offering high quality, practical and technical information for providing optimal patient care.

Dedicated volunteers of ophthalmologists and technicians are bringing you a unique virtual ACE program November 7, 14 and 15. ACE 2020 will showcase lectures by exceptional and experienced faculty with engaging sessions to upgrade your skills and techniques. Please join me on Saturday, November 14, for the keynote Harold A. Stein, MD Lecture and the Capstone Lectures: Innovations in Ophthalmology. Don’t miss the event of the year!

Neil T. Choplin, MD, President

Reasons to Join Us at ACE 2020

- No quizzes for all courses
- Obtain relevant information on COVID-19 at the Harold A. Stein, MD Lecture
- View the Live Broadcast with world-renowned faculty
- Take On-Demand courses at your own pace – available for 45 days
- Elevate your knowledge during the Capstone Lectures Live! Innovations in Ophthalmology
- Gain insight on front-line topics in Sub-Specialty Sessions
- Register for the Coding Day with AAOE experts – view aao.org for date and details
- Engage in Roundtable Sessions on key topics
- Earn CE credits approved by IJCAHPO and CA BRN (OPS credits pending)
- Connect with peers in real-time for the EYEXchange FREE forum
- Attend the Allergan TechAlliance Presentation and Interactive Discussion
- Develop expertise at Learning Labs and equipment demonstrations
- Visit Sponsors and Exhibitors in the Virtual Exhibit Hall
- Validate your examination content area knowledge with Certification Exam Prep Courses

Mobile App & Website!
