

Uninstalling the IJCAHPO Flash Player

STEP	ACTION
1.	Click the Windows Start button (located in the bottom-left corner of your screen). 
2.	Click Gear / Settings (located just above Windows Start button). 
3.	Click Apps . 

4.	Scroll through the list of your apps and click IJCAHPO Flash Player .
5.	<p>Click the Uninstall button.</p>  <p>The screenshot shows the Windows Settings application open to the 'Apps & features' page. The left sidebar shows 'Apps & features' selected. The main area lists installed apps. 'IJCAHPO Flash Player' (version 1.0.4, 20.6 MB) is highlighted. Below it are 'Modify' and 'Uninstall' buttons. A mouse cursor is clicking the 'Uninstall' button.</p>
6.	<p>Click the 2nd Uninstall button.</p>  <p>The screenshot shows the same 'Apps & features' page. A confirmation dialog box is displayed over the 'IJCAHPO Flash Player' entry, stating 'This app and its related info will be uninstalled.' The dialog has an 'Uninstall' button. A mouse cursor is clicking this second 'Uninstall' button.</p>
7.	Close the Settings window.
8.	Click Instructions for Downloading and Installing the new IJCAHPO Flash Player .
